# FHS Authorship Attachment (must be revised if changes are made, subject to Publication Committee and/or Board Approval)

Gathering data takes a lot of work, and in many sites, more than one person collects the data. In most journals, authorship criteria do include "data collection and analysis" in addition to input on the final manuscript (writing, editing, feedback). Remember, though, that collaborators can also get a PubMed citation. Please also keep in mind that the FHS written policy (see Manual of Operations) states clearly that "submission of case materials alone does not satisfy the ICMJE authorship requirement".

To that end, please complete below and update as necessary. Updated attachment versions should be sent to the FHS Publications Committee Chair, <a href="mailto:publications@fetalheartsociety.org">publications@fetalheartsociety.org</a>.
